### Measures taken to address the Human Corona Virus

Dear Parents,

The Corona Virus outbreak has affected all schools during this circuit breaker period and we understand every parent is very concerned about their child's safety and what measures the school will be undertaking upon reopening.

To address concerns:

#### How is the Centre protecting your Child?

Natural pharmaceutical grade Australian tea tree is being circulated throughout the centre at all times. The school will also be implementing periodical non-chemical disinfection misting of the entire school.

With a combination of Pharmaceutical tea tree circulation and disinfection we are certified to be capable of eliminating the following bacteria and viruses:

#### Bacteria:

- *Human coronavirus, strain 229E, ATCC VR-740*
- *Influenza A (H1N1), strain A/Swine/1976/31, ATCC VR-1682*
- *Influenza B, strain B/Hong Kong/5/72, ATCC VR-823*
- *S. aureus ATCC 6538*
- *B. Anthracis*
- *Staphylococcus aureus ATCC 6538*
- *S. choleraesuis ATCC 10708*
- *E. coli ATCC 25922*
- *Pseudomonas aeruginosa ATCC 15422*
- *Salmonella typhimurium ATCC 14028*
- *Salmonella Salford*
- *Legionella pneumophila ATCC 33152*
- *Total bacterial plate counts, including Legionella species bacteria*
- *B. Anthracis*
- *Proteus vulgaris*
- *Serratia marcescens*
- *Enterococcus faecalis*
- *Enterohacter aerogenes*
- *Coryncbacterum sp Propionebacter*
- *Pseudomonus putido*
- *Staphylococcus epidermidis*
- *Staphylococcus aureus*
- *Bacillus subtilis*
- *Bacillus cerus*
- *Micrococcus luteus*

### What is Tea Tree Oil and why use it?

Tea tree oil is distilled from the leaves of the Melaleuca alternifolia plant, found in Australia. The oil possesses antibacterial, anti-inflammatory, antiviral, and antifungal properties.

eMage Air use only pharmaceutical-grade, 100% pure Australian tea tree oil as it has the highest percentages of active compounds and is the most effective grade in controlling microorganisms.

### Company history and credentials

eMage Air specializes in improving and introducing the next level of Indoor Air Quality to our users. We use natural pharmaceutical grade Australian tea tree without the use of chemicals. Since 2015, eMage Air has successfully improve the Indoor Air Quality of over 100 companies and families.

eMage Air is designed to evaporate when air flows over the gel carrying the tea tree oil molecules with it into the air and throughout the coverage area. Actively seeking out bacteria and protecting your home.

As the tea tree oil comes in contact with bacteria, mold and other microbes in the area, it pierces the cell membrane and they are neutralized.

We provide an all-natural Australian tea tree day-to-day purification system as well as a disinfection misting service.

For more information on lab reports, testimonials or to enquire about our service do visit our website at <http://www.emageair.com/>

Yours sincerely,
