Testimonial for Air eMage

My Little Kingdom has been using the air purifier since the beginning of the year 2020. I like the fact that it is all-natural and is totally safe for the children. On top of that, it also helps to disinfect and even acts as a repellent towards mosquitoes. The mild scent of the Tea-Tree Oil is refreshing and it is being circulated throughout the centres 24/7 with a special device.

During the trial period, we were able to see significant improvement in the children's condition. This shows the effectiveness of the product. There were much lesser runny noses and cases of children falling sick. We are very happy with the results.

Air eMage maintains the air evaporating gel by coming down to our centres on a monthly basis. We are very pleased with their products and excellent service that they provide. We highly recommend Air eMage Natural Air Purification System to other pre-school operators.

Yours sincerely,

Yvonne Yeo
