

## TESTIMONIAL

We have been using AIR eMage – Natural Air Purifier products since a year. This has greatly improved the Indoor Air Quality by trapping in small mosquitoes and keeping the Air fresh and clean. This also eliminates bad odour in the classroom as we use lemon grass fragrance.

The whole set lasts for a month which is very cost efficient. We have reported NIL cases of HFMD so far. This keeps both our parents and children happy. It has also helped in reducing flu amongst teachers by keeping the air clean and fresh. I would definitely recommend this product to schools as really works!!
