Testimonial for AIR eMage

Since our centre has embarked on collaborating with AIR eMage, we have a lower case of flu among our children.

Wildie keeps to his words and arrangements by ensuring to update the solutions and the conditions of the dispensers on a monthly basis.

Following every visit, Wildie will update the centre on the 'status' of the solutions so that we are more aware on the environment. Eg, are there small insects found or is it clean, etc.

I recommend AIR eMage for both the products and services.
